Professional Summary

Full-Stack Software Developer with 5+ years of experience using Laravel and 2 years working with the MERN stack to build clean, scalable, and modern web applications. Skilled in designing secure APIs, building intuitive user interfaces, and delivering production-ready solutions. Open to new opportunities to contribute, grow, and prove my effort.

Core Skills

Frontend: React.js, HTML5, CSS3, JavaScript, Tailwind CSS, Bootstrap
Backend: Laravel, Node.js, Express.js
Databases: MySQL, MongoDB
Tools: Git, Postman, VS Code
Other: REST APIs, MVC, Authentication, Debugging, Optimization

Experience

Full-Stack Developer — Freelance (2020–Present)
Designed and developed full-stack applications using Laravel, React, Node.js, and Express. Built secure REST APIs, created dynamic UIs, improved performance, and integrated third■party tools.

Laravel Developer — Various Projects (2019–2024)
Developed scalable Laravel applications, implemented authentication systems, designed MySQL databases, maintained and optimized software.

Projects

• Student Quiz System (Laravel)
• Movie Website (React.js)
• Attendance System (Face Recognition)
• Weather Dashboard (HTML/CSS/JS)

Education

Software Development & Networking Courses (2019–Present)

Personal Strengths

Fast learner, strong problem-solving skills, creative thinker, good communication, passionate about delivering real-world solutions.

Interests

Software development, machine learning, tech innovation, fitness, digital products.
